

AKASH GUPTA

DevOps Engineer

akashgupta97973@gmail.com | +91-9967964569 | Mumbai, India | linkedin.com/in/akash-gupta765

PROFESSIONAL SUMMARY

DevOps Engineer with 3+ years of experience in DevOps, application support, and Linux administration across cloud-native environments. Skilled in Kubernetes, AWS, Docker, Terraform, and CI/CD pipeline automation, with a strong track record in production troubleshooting, incident management, and improving deployment reliability and operational efficiency.

KEY HIGHLIGHTS

- Managed 25+ production servers for the YES Securities trading platform, hosted across AWS and NTT data centers.
- Managed and maintained CI/CD pipelines using Jenkins, Docker, and Git, with periodic updates and improvements as needed.
- Hands-on with SBOM generation and vulnerability tracking to support container security compliance.

CORE TECHNICAL SKILLS

Cloud & Infrastructure: AWS (EC2, S3, VPC, Route 53, ALB), Kubernetes, Docker, Terraform, Ansible, Infrastructure as Code (IaC)

Web & Application Servers: Nginx, Apache Tomcat, SSL/TLS Configuration

CI/CD & Version Control: Jenkins, GitHub Actions, Git, CI/CD Automation

Monitoring & Databases: Prometheus, Grafana, MySQL, Redis

Operating Systems & Scripting: Linux, Windows Server, Bash/Shell Scripting

PROFESSIONAL EXPERIENCE

DevOps Engineer | Rupeeseed Technologies | Nov2024 - Present

- Built and maintained Jenkins CI/CD pipelines to automate build, test, and deployment of trading platform applications.
- Containerized and deployed frontend and backend services using Docker and Kubernetes; deployed and monitored workloads on AWS EC2.
- Automated infrastructure provisioning and configuration management using Terraform and Ansible.
- Managed end-to-end operations of 25+ servers for the YES Securities trading platform (AWS and NTT-hosted) across UAT, CUG, and Production environments.
- Led incident management and root cause analysis (RCA) for critical production issues, minimizing downtime and improving reliability.
- Generated and maintained Software Bill of Materials (SBOM) for deployed container images to support security compliance and vulnerability tracking.
- Served as primary point of contact for the YES Securities client, managing platform requirements and coordinating with application teams and architects to improve scalability and operational readiness.

Linux Engineer | Ideastack Technology | Oct2023 - Nov2024

- Installed and configured Linux/Windows servers; performed remote administration via SSH, console, and RDP.
- Managed network services including FTP, SFTP, NTP, SSH, Telnet, and Ping for system connectivity and troubleshooting.
- Wrote shell scripts for log transfers, user creation/deletion, and scheduled tasks using Crontab.
- Managed LVM (created/extended/reduced logical volumes), Ext3/Ext4 file systems, partitioning, and mounts.
- Performed database management tasks, including backups, restores, and SQL queries for data validation and troubleshooting.
- Handled package management using YUM, RPM, and APT; installed software from source when required.

CERTIFICATIONS & ACHIEVEMENTS

- DevOps / Cloud Certification — IT Vedant
- Best Support Engineer Award — YES Securities

EDUCATION

Bachelor's Degree — Shree G.P.M. Degree College, Mumbai University (Apr2019 - June2022)

Higher Secondary (12th), CBSE Board — Dolphin Public School (Apr2016 - June2018)
