AKASH GUPTA

Application Support Engineer | Linux Production Support | BFSI and Trading Platforms

Mumbai, India | +91 9967964569 | akashgupta97973@gmail.com | linkedin.com/in/akash-gupta765 | github.com/guptasky/Akash-Gupta

PROFESSIONAL SUMMARY

Application Support Engineer with 3 years of experience in BFSI and trading platforms. Handle L1/L2 production support, incident management and Root Cause Analysis (RCA) for live trading applications across UAT, CUG and Production, including market hours. Comfortable with Linux, Nginx, Apache HTTP Server, Apache Tomcat and Oracle, MSSQL and MySQL databases. Also work with Jenkins, Docker, Kubernetes and AWS as part of releases and deployments.

TECHNICAL SKILLS

Application Support: Production Support, L1/L2 Support, Incident Management, Root Cause Analysis (RCA), Troubleshooting, Log Analysis, Release Deployment, Rollback, Post-Deployment Verification, UAT Support

Web and Application Servers: Nginx, Apache HTTP Server, Apache Tomcat, IIS

Databases: Oracle Database, MSSQL, MySQL, Redis, SQL Queries, Backup and Restore

Operating Systems: Linux (RHEL, CentOS, Ubuntu), Windows Server 2016

Monitoring: Grafana, Prometheus, AWS CloudWatch

Scripting and Automation: Shell Scripting, Crontab, Ansible

Security and Patching: Vulnerability Management, Patch Management, SELinux, OpenSSL, SBOM (Software Bill of Materials)

DevOps Tools: Jenkins, Docker, Kubernetes, Git, GitHub, CI/CD Pipelines, Terraform (basic)

Cloud (AWS): EC2, VPC, EBS, ELB, IAM, Route 53, Security Groups

WORK EXPERIENCE

Tech-Ops Engineer | Rupeeseed Pvt. Ltd. (Client: YES Securities), Mumbai | 2024 - Present

- Provide L1/L2 support for YES Securities trading platforms in UAT, CUG and Production, including live market hours.
- Handle production incidents end to end: check logs and monitoring, find the root cause (RCA) and restore service.
- Deploy releases with pre-release checks and post-deployment verification, and roll back when needed.
- Troubleshoot issues on Nginx, Apache HTTP Server and Tomcat, and on Oracle, MSSQL and MySQL databases.
- Run SQL queries for data checks; take database backups and restores.
- Monitor servers and applications using Grafana and Prometheus.
- Work with the security team to fix vulnerabilities and apply patches.
- Support Jenkins pipelines (build, deploy, validate, rollback) and run applications on Docker and Kubernetes (kubeadm) hosted on AWS EC2.
- Generate SBOMs for container images to track vulnerabilities.
- Received the Best Support Engineer Award for production support and incident resolution.

Linux Administrator | Ideastack Pvt. Ltd., Mumbai | 2023 - 2024

- Installed and administered Linux and Windows servers; remote access through SSH, console and RDP.
- Set up and maintained Apache HTTP Server, Nginx, Apache Tomcat and IIS web servers.
- Configured FTP, SFTP, NTP and SSH services.
- Wrote shell scripts and Crontab jobs for log transfers, user management and scheduled tasks.
- Managed LVM, Ext3/Ext4 file systems and partitions; configured SELinux and OpenSSL.
- Handled packages with YUM, RPM and APT; transferred files using SCP, Rsync, WinSCP and FTP.

PROJECTS

- **CI/CD Pipeline (Jenkins, Docker, Git):** Pipeline that pulls code from GitHub, builds a Docker image, pushes it to a registry and deploys to a target server.
- **Kubernetes Deployment (kubeadm):** Deployed a multi-tier containerized app using Deployments, Services, ConfigMaps and Secrets; fixed CrashLoopBackOff and ImagePullBackOff errors.

CERTIFICATIONS AND ACHIEVEMENTS

- Best Support Engineer Award, YES Securities
- DevOps and AWS Training Certificate, IT Vedanta

EDUCATION

- Bachelor of Science (B.Sc.) in Computer Science, University of Mumbai, Mumbai, India
